

A comprehensive assessment performed in the home and individualized to your specific needs and concerns

Are you caring for parents long distance and want to have a qualified social worker visit them and assess their needs?

Are you caring for a spouse at home and need a professional to evaluate your situation and give recommendations for safety and care needs?

Do you live alone and want to know your options for care and assistance as you age in place?

A geriatric assessment can provide:

- ▶ A new set of eyes on your situation
- ▶ Someone to help you understand your options
- ▶ A caring social worker to support you and your family
- ▶ Peace of mind
