The Need for a Helping Hand

Seniors often face challenges tackling household repairs, and may lack family assistance or funds for professional services.

The Rotary Home Team™ offers help with common maintenance tasks, such as:

- Replacing hard-to-reach light bulbs
- Changing smoke detector batteries
- Fixing leaky faucets
- Repairing doors
- Adjusting handles and cabinet pulls
- Resetting circuit breakers
- Other minor repairs

Trust the Rotary Home Team to maintain a safe, comfortable home environment for seniors.

How It Works

Please contact Senior Concerns at (805) 497-0189 to schedule an appointment.

Senior Concerns will coordinate with the Rotary Home Team to schedule an appointment with you. Workdays are held one Saturday every other month (dates subject to change).

During the workday, volunteer Rotarians will visit your home to assist with minor repairs. Rotary Home Team volunteers will provide proper identification and discuss your maintenance needs. You will be asked to sign a liability waiver.

Volunteers come prepared with tools to complete the tasks. If they cannot address your needs, they can offer referrals to qualified professionals.

Getting Results

Lights turn on, doors open smoothly, and faucets no longer drip! Upon completion of repairs, Rotary volunteers will provide you with a list of additional resources available to seniors in your area.

Rotary volunteers are ready to help you feel safe, secure and comfortable in your home. They are responsible, friendly, local members of your community who want to connect with you!
