Seminar Topics

- ❖ Differentiate normal aging changes from medication-related symptoms
- ❖ Recognize that aging typically presents gradually, while medication issues often have a clear timeline or trigger
- ❖ Understand how a medication list reflects care history, provider decisions, and transitions in treatment

Presented By:

Andrea Simon, PharmD, BCIDP, APh
Hospital Pharmacist • Medication Management Specialist

Andrea Simon is a board-certified infectious diseases pharmacist and Advanced Practice Pharmacist with more than ten years of experience managing complex medication regimens.
